Child Safe Standard 7: Strategies to promote Child Participation and Empowerment

Templestowe Park Primary School has developed strategies and programs to communicate and engage with all children who are involved with our school. It is important to monitor when our children feel safe and when they feel unsafe. We encourage, listen and support our children when they speak up about issues of safety and wellbeing.

Forums for children to speak up in relation to safety and wellbeing include:

- Junior School Council
- Circle time in every P-6 classroom
- RRIPO (P-6)
- Attitudes to School Survey

Strategies and programs to promote student participation and empowerment include:

- Buddies programs
- RRIPO
- P-6 Inquiry units of work based on the school values and positive behaviour
- Annual protective behaviours program
- TPPS being a Positive Education school and adapting the positive psychology model (PERMAH) as a framework for children to 'thrive and flourish'
